#### HOW TO:

It's best to apply after showering - warm water opens up your skin and hair pores which in turn allows for better absorption - then towel dry your face and beard  
 Apply 4 - 8 drops, depending on the thickness and length of your beard, onto the palm of your hand, rub hands together, and work your fingers and palms through your beard, from top to bottom, and from your throat upwards and through your moustache from root to tip....comb or brush through and style accordingly  
 If you have a medium-long moustache, don't forget to apply our moustache wax to tame and style your mo!  
 Stand back, and admire your smooth, glossy and healthy beard and smoothly styled beard!

### MOUSTACHE WAX

Our moustache wax is 100% organic hand crafted. Perfect blend between Beeswax, organic Coconut Oil and Sweet Orange and Lemon essential oils which lends a subtle, slightly sweet, warm woody aroma.

This blend of beeswax, coconut oil and essential oils will moisturise, rejuvenate and protect your skin, restores protein loss in dry damaged hair, condition and stimulates hair growth as well as working as an anti-bacterial, anti-inflammatory and decongestant.

HOW TO: Scrape a small amount of wax using your nail, rub between your thumbs and index fingers to warm up and soften the wax, apply to your moustache from the root through to the tips. Comb or brush through and style accordingly
